Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia was the subject, is narrated by him, as follows: 'I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite-gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters, and to my great loy and suprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life and robbed the grave of another victim. No one should fall to try them. Only 50 cents a bottle, at Z. C. M. I. drug department.

A Kentucky school teacher who had for years endured what she describes as "perfect martyrdom," from headache and dyspepsia, writes, in a letter from Louisvilla, to say. "When I was teaching school in Pittsburg, Laurel County, a friend, a muschant there, who has also suffered much from dyspepsia and becadache, said he had found a sure cure for these diseases in Ripans Labules, and he gave me a few to try. I found my becadache left me. I then sent to New York, to the manufacturer, for a box, and whenever troubled with indigestion toos them. I soon found myself much better; but, after some months and after indulging improdently in eating, I again suffered from my old enemy—'indigestion.' I sent to Louisville and got a box. Finding great relief from this I got another, which certainly proved my confidence in the medicine. I grew so much better that I now only take them when I find I need them; but if I am imprudent in eating I had nothing better than these Taliules. Being a tencher, I lead a sedentary life, so that oftentimes I find myself billious and feeling heavy and dull; then I avail myself of the good effects of Ripans Tahules. The gentleman from whom I bought the first Tabules tells me that he has found them more beneficial in sick headache than any other remedy. Like myself, he thinks they are infallible in dyspepsis."
